To be successful in your career, it is not enough to have a good educational background and good experience in the industry. You need to understand what your main objectives are as a commercial designer. • You must be able to communicate clearly, professionally, and in a structured fashion. Advertising is not just about the art direction and the promotion of the product. It is about the realization of an intention, the process of convincing others to buy, and/or use. It is about the effective communication to the audience. Commercial design projects and advertisements are a great way to gain exposure to the business world. This way, you get to learn how the business world operates and how you can be an effective part of it. You also get to do professional work, which allows you to demonstrate your knowledge and skills. Ad agencies and commercial design companies provide all the tools that are needed to ensure that clients are happy with the work. This is especially true when it comes to creating ads that are engaging and professional-looking. Below are some tips that will help you create commercial ads that will get noticed and appreciated. Q: Jsoup is not working with subfolder I'm trying to retrieve all images from a webpage. I've followed this solution. It works good as long as the page is at the root folder. But as soon as i put the images in a subfolder as they are on my website, the getImages() call returns empty. This is what i have done: Page page = Jsoup.connect("").get(); Elements items = page.select("img"); I've tested and it returns the elements if the page is in the root folder (But if the page is in f678ea9f9e
