[BIG POGO MAN takes the climbing and "fast to fail but easier to handle with practice" controls of Getting Over It With Bennett Foddy and combines it with some of the visuals of Katamari Damacy. And also some of the cheekiness of Hand Simulator.](#)

[We had a bunch of fun playing it and genuinely felt like the more we played it, the more actually competent with the controls we got.](#)

[We would still put it in the "clumsimulator" genre, and that means it's probably not for everyone, but we dig it!. THIS GAME POGO STICKED ME TO FRUSTRATION!!!!!!](#)

[In all honesty this game is annoying, but challenging. Is it worth the money? In my opinion, no. It does provide a bit of entertainment from a simplistic concept though.](#)

[I hope anyone who plays this does better than me!](#)

[Here is my play through: https://youtu.be/OiJraJ6eRE4. B A D P OMEGALUL S T U R E. i want to see the front face of the pogo man. Great game!!!!!! 10/10](#)
